Mobile Mammography

The year is flying by and the **NSIPA** team has been working hard to make **health equity a priority**. One of the largest barriers to care we see for our patients is **transportation to specialist appointments**.

We are excited to announce that NSIPA has partnered with **Mount Sinai Mobile Mammography Program**, to ensure that your community has access to specialized care. The **Mobile Mammography Bus** can shoot **bilaterally**, resulting in an **appointment time of only 15 minutes**.

The **survival rate** for women diagnosed with **breast cancer** at the **earliest stage** is about **99%**, whereas only around **32%** of those identified at the most advanced stage live for **5 years or longer** (**CDC, 2024**). Please reach out for future scheduling opportunities.

Blood Clot Awareness

NSIPA is proudly supporting one of our own, **Jill Cowley**, and the **National Blood Clot Association's; 1st Annual Chandra's Stop the Clot Golf Tournament and Benefit**. This community event will take place on **August 17th, 2024**, at **Tamarack Golf Club** located in **Oswego NY**. This event is honoring the life of **Chandra McFarland**. **Proceeds will fund Chandra's son, Colt, school tuition**. The school **Colt** currently attends is out of district and best equip to support his needs as an **Autistic student**. The remainder of the proceeds will be donated back to **The National Blood Clot Association** for graciously hosting this event. Please reach out to **Jill** if you are interested in joining a team or donating to the cause (**Email: jillbeverley@gmail.com**).
